Participation is open to all legal persons participating either individually or in a grouping (consortium) of tenderers which are established in a Member State of the European Union or in a country or territory of the regions covered and/or authorised by the specific instruments applicable to the programme under which the contract is financed (see item 22 below). All goods supplied under this contract must originate in one or more of these countries. Participation is also open to international organisations. Participation of natural persons is directly governed by the specific instruments applicable to the programme under which the contract is financed.
9. **Grounds for exclusion:**
Tenderers must submit a signed declaration, included in the tender form for a supply contract, to the effect that they are not in any of the situations listed in point 2.3.3 of the 'Practical Guide to contract procedures for EU external actions'.
10. **Number of tenders:**

Tenderers may submit only 1 tender per lot. Tenders for parts of a lot will not be considered. Any tenderer may state in its tender that it would offer a discount in the event that its tender is accepted for more than 1 lot. Tenderers may not submit a tender for a variant solution in addition to their tender for the supplies required in the tender dossier.

11. **Tender guarantee:**

Tenderers must provide a tender guarantee of 1 100 EUR when submitting their tender. This guarantee will be released to unsuccessful tenderers once the tender procedure has been completed and to the successful tenderer(s) upon signature of the contract by all parties. This guarantee will be called upon if the tenderer does not fulfil all obligations stated in its tender.

12. **Performance guarantee:**

The successful tenderer will be asked to provide a performance guarantee of 10 % of the amount of the contract at the signing of the contract. This guarantee must be provided together with the return of the countersigned contract no later than 30 days after the tenderer receives the contract signed by the contracting authority. If the selected tenderer fails to provide such a guarantee within this period, the contract will be void and a new contract may be drawn up and sent to the tenderer which has submitted the next-cheapest compliant tender.

Selection and award criteria

16. **Selection criteria:**

The following selection criteria will be applied to tenderers. In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole:

1) Economic and financial capacity of tenderer (based on i.a. item 3 of the tender form for a supply contract). In the case of the tenderer being a public body, equivalent information should be provided:

(a) the average annual turnover of the tenderer must be at least equal to the financial proposal of the tender;
(b) cash and cash equivalent at the end of last 3 years (2007, 2008 and 2009) were positive.

2) Professional capacity of tenderer (based on i.a. items 4 and 5 of the tender form for a supply contract):

(a) has a professional certificate appropriate to this contract, i.e. is an accredited dealer of the brands it is providing and has an accredited after-sales service/maintenance shop (manufacturers' authorisation to sell the product is to be provided);
(b) has a minimum of 5 staff employed.

3) Technical capacity of tenderer (based on i.a. items 5 and 6 of the tender form for a supply contract):

(a) the tenderer has successfully completed at least 1 contract with a budget of at least that of this contract in the past 3 years;
(b) the tenderer has provided successfully the after-sales service for similar vehicles for at least 1 institutional customer in the past 3 years.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the contracting authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal. Such

entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator.

17. **Award criteria:**
Price.
